Sharing Our Photography

By Pauline Beck, President

Yes, we're back to meeting in the Faith & Education Center!

Luther Manor reviewed their room usage at the beginning of the year. Apparently, resident medical information is transmitted over a permanent fax machine in the boardroom we had been using. Because of patient confidentiality, they can't allow the public to use this room.

For those who haven't met with us at the Center, enter the Luther Manor complex at the North Entrance instead of the south, and drive to the large parking lot outside the Center.

The F&E Center has advantages: a nice big screen for projection, plenty of room for our potluck dinners, and a large kitchen. The downside is that it's hard to hear. Steve Stonecipher will be projecting at the February meeting, and he'll bring a microphone and speaker to try out.

The other disadvantage: it's further from our photo display in the Welcome Center. And I just spent several hours last week, putting up our new display, and was looking forward to everyone viewing it! Feel free to come a little earlier, and stop in at the south entrance to see it.

When I was working on the display, a resident in a wheelchair and her aide came into the Welcome Center. They said that they were just commenting that it would be nice to see some new photos. I pointed out to the resident the heading at the top, which spells out "PHOTO EXHIBIT" in photo alphabet letters. "Oh yes," she said, "I'd noticed that right away, last time." So I think the display is enjoyed by the residents of the complex and their families – and I hope that the club can continue to appreciate it, as well.

I'd like to change the display again after the March meeting. Please bring several 8 x 10 prints March 7 of any subject. Then starting in July, it would be fun to feature photos of the State Fair. You'd need to bring several of those prints to the May 16 meeting.

I still have hopes of mounting an exhibit called "Here & There" at City Hall and elsewhere. I think this would be an intriguing and thought-provoking display.

It would consist of pairs of photos: one shot in the local area and a matching image from elsewhere in the state, the US, or the world. Examples: local lighthouse with one from another locale; urban kayakers with one from an isolated north woods site; and lion from our zoo and one from Africa. Perhaps one of our meetings next year could feature our digital images of these scenes, in preparation for making prints. We all remember some photos that other club members have shown through the years, and could pair up with someone, if we don't have a set. For instance, I recently shot a sailboat under the

Bay Bridge in San Francisco; maybe someone has a sailboat with the Hoan Bridge in the background.

Thanks to all members who contribute to the display boards, and to Bert, who helps take down the display. And also thanks to Steve Stonecipher, as we move back to the Faith & Education Center. He has spent some time testing and tweaking the projector settings.

Have a great meeting in February – I'll be hunting down some interesting Challenge subjects on Nevis (although none will be as fun as last year's rum drink umbrella photo shoot!)

**Club Outing February 23. Save the date and check your email for details.**
